BY KATE I oft have thought that twilight's hour Had many charms surpassing all The charms of morn or noods ys' gleam For when night's curtains fall, It brings ten thousand gome to sight. That beautify a nd grace the night.

I look upon the vast expanse,
And turn to where the sun has set, And oh ! it seems the fairest night, That ; yes like mine bave ever met,
As round the crimson screens of gold.
The shades of deep darkness fold.

I love at hours like this to watch The flery moteors that fly. Likerockets, burled by angels' bands. Across the etherial sky; It fills my woul with pure delight. And makes me reverence the night

Amid romantic scenes alone, I love at twitight's hour to rove : To traverse o'er the mountit plains.
Or wander through the poiseless grave It spreads before my mind profuse. The things on which I love to muse.

SPEECH

HON. GEORGE P. STEELE,

OF LUZERNE COUNTY, Delivered in the Senate of Pennsylvania on Thursday, May 7, pending the Bill for the sale of the Main Line,

Mn. SPEAKER:-I have occupied but little of the time of this body during the session in the way of speech-making, hav-ing always preferred being an attentive listener to those who have had experience in matters of legislation; but, sir, at the present stage of our deliberations I feel it a duty incumbent upon me to raise my feeble voice against the iniquitous messure now pending. Were I to remain in my seat without uttering a word in con-demnation of this proposed act, my consti-tuents would think—and justly too—that I had proved recreant to every principle of honor—that I was neglectful of the great interests of the Commonwealth, and that, as a necessary consequence, I was unfit to represent them. In justice to the past, present, and future-in justice to the hard working tax-payer-in justice to everything near and dear to the glory and prosperity of our country, I propose saying a few words in the way of admonition.

Sir, in my humble judgment, very many

of the provisions of this bill are based upon error and fraught with great evil. Some of them I believe to be wholly unconstitutionsi, and an outrage upon the rights of the honest tax payers of Pennsylvania. Sir, the very idea of selling the main

line of the public works to a mammoth, heartless, soulless corporation, is simply absurd, and should be treated with derision and contempt by every well-thinking man. The people of this country, sir, are not quite prepared to form a gigantic land. It stalks forth at noonday, and its grasping monopoly that may hereafter be midnight revels go unchecked. It defies able and willing to dictate to the voters the power of man to tame it, and scoffs at who their rulers shall be and what kind of legislation they shall have. No, sir, I trust the public mind is not yet poisoned at the disunion of society and threatens the to such an extent as to permit the perpo-

from all that I can see or hear, my mind Mr. Speaker. I now call on my friends, is fully made up that the Canal Board have been sinued against far more than they have sinued, If they have committed any great wrong or are guilty of any heinous offence, why is it not shown to Sena-tors? This bill, sir, to say the least, bears upon the face of it a palpable and deliberate less. Consequently it will be perceived fraud. No measure his ever been intro- that had not the Canal Board wisely disduced in these halls, or those of any Republican Government, that will have so coal trade, the revenue derived would have publican Government, that will have so great a tendency to weaken the confidence of the people in the integrity of their representatives. One section provides that if not have competed with operators that the Pennsylvania Railroad Company purchases the Main Line that all their property, proof of my assertions, I would merely real and personal, shall be forever exempt and free from any State tax, and that their the collector's office at Beach Haven, which charter shall be perpetual. Sir. it is well last year came to more than \$254,000. charter shall be perpetual. Sir, it is well known that the revenue derived from the tonuage tax alone now imposed upon the Pennsylvania Railroad amounts annually to the sum of \$225,000, and which if multiplied by thirty-three, (the number of years given that company to pay for the Main Line,) would amount in the \*ggregate to Year 1845, one of three Commissioners to the sum of \$7,425,000. Then, aside from meet in Philadelphia to sell the Delaware this tennage tax, must be taken into consideration other taxes, which would annually amount to some \$80,000 or \$90,000 and, sir, I will here take occasion to proand all of which under the present bill nounce that law an abominable outrage they would be exempt from paying. In these figures I make no estimate of the natural and inevitable average increase of taxes, which would loom up to a pretty snug sum. A single glance at the provisions of this bill will not only tell you that it is preposterous but that it is rascally and and wicked in the extreme. How any legislator can muster sufficient during to vote for a bill so abominable in all its features, and then brave the unavoidable indignation of an enlightened and honest constituency is more than can be divined. Sir, the people have been flattered and cajoled by this corporation, and now it is about to rob them. A few speculators have, by dint of impudent villainy, managed to divert the attention of the honest masses from their real interests by the hue and

ery of "stop thief!" Sir, when I rose it was not my intention to have occupied so much of the time of the Senate. As an apology, I have only to say that my constituents, as much so as those of any other Senator upon tais floor, have a deep and an abiding interest in the mouth if by so doing her interests would be protected.
